PERSONAL PROJECTS

Information Distribution (04/2023 - 06/2023)
- It serves as a platform to disseminate various types of content to its audience.
- It typically aggregates, curates, and publishes information ranging from news articles, educational resources, entertainment updates, and more.
- Link:- https://informme.onrender.com

BlogSphere (01/2024 - 03/2024)
- Developed a dynamic and user-friendly blog application designed to enhance content creation and engagement. The app features a clean, intuitive interface that allows users to easily create, edit, and publish posts.
- It includes advanced functionalities such as categorization, tagging, and multimedia support to enrich content and improve discoverability..
